

**UNFCCC COP 24  
Katowice, Poland**

**Concept Note  
Action Event: Transport**

Marrakech Partnership for Global Climate Action

Friday, 7 December 2018  
15:00 – 18:00

Organised by the Transport Thematic Group

# MPGCA Transport: Scaling Up Climate Action in the Transport Sector

## Description

While highlighting the scale and range of climate action in the transport sector, this event identifies political, technical, social, and economic barriers, which are preventing the scaling up of climate action and examines how UNFCCC Parties can help address these barriers at the national level.

## Overall Narrative/Background

Transport needs to contribute to the global decarbonisation process. However, due to strong growth in demand for passengers and freight transport, carbon emissions from transport continue to increase. The transport sector contributes 23% of fuel-burn carbon dioxide (CO<sub>2</sub>) emissions globally and this percentage is higher in some countries. Greater transport efficiency in developed economies has not been able to compensate for the much higher increases in passenger transport and freight demand. On average, OECD<sup>1</sup> countries emitted approximately 2.8 tonnes of CO<sub>2</sub> in 2015, whereas non-OECD countries only emitted 0.5 tonne per capita. Emissions from non-OECD countries are expected to grow to levels comparable with OECD countries as their transport demand continues to increase. Current developments in the transport sector include the implementation of various policies and measures targeting the advancement of technology and changes in travel behaviour, supply chain optimisation, improved urban planning and operational measures to improve the efficiency and resilience of the transport system as a whole. High level discussions have identified the need for Parties to address barriers that inhibit non-Party action and stronger co-operations to scale up climate action by all stakeholders.

## Objective of the event: Impacts and progress made in 2018

The objective of this event is focused on the identification of measures that could help Parties scale up climate action in the transport sector through three specific areas, namely, 1) urban transformation and changes in travel behaviour, 2) low-carbon energy supply strategy and 3) improve modal shift and system efficiencies. Together with a segment on strategic visions and tools, these three areas shape the programme of this event, where impacts and progress made in 2018 through a wide range of transport initiatives will be highlighted and discussed. Challenges and solutions will be presented to develop future pathways for cities, countries and the private sector to decarbonise transport.

---

<sup>1</sup> OECD Member countries currently include Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Lithuania, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom, and the United States (<http://www.oecd.org/about/membersandpartners/list-oecd-member-countries.htm>).

## Programme

Date: Fri, 7 Dec 2018 Time: 15:00 – 18:00 Room TBC	<b>Scaling Up Climate Action in the Transport Sector</b>
5 min	<b>Introduction by Moderator</b> [TBD]
25 min	<b>Format: Panel</b> <b>Segment 1 – Strategic Visions and Tools</b> Moderator: Patrick Oliva, Co-founder, Paris Process on Mobility and Climate (PPMC)  <b>Speakers</b> <ul style="list-style-type: none"> <li>• Jari Kauppila, Head of Statistics and Modelling, International Transport Forum (ITF)</li> <li>• Henri Waisman, Senior Researcher, IDDRI</li> <li>• [TBC] Carbon Disclosure Project</li> <li>• José Mendes, Vice Minister for Mobility, Portugal</li> </ul>
10 min	Responses and comments from Parties
25 min	<b>Segment 2 - Urban Transformation for Passenger and Freight Transport</b> Moderator: Maruxa Cardama, Secretary General, Partnership on Sustainable Low Carbon Transport (SLoCaT) <ul style="list-style-type: none"> <li>• Ninna Hedeager Olsen, Mayor, City of Copenhagen</li> <li>• Maël Martinie, Project Manager, CODATU (MobiliseYourCity)</li> <li>• Armin Wagner, Transforming Urban Mobility Initiative (TUMI)</li> </ul>
10 min	Responses and comments from Parties
25 min	<b>Segment 3 – Low Carbon Energy Strategy for Transport</b> Moderator: Rasmus Valanko [TBC], World Business Council for Sustainable Development <ul style="list-style-type: none"> <li>• Driving Change Together Partnership, Poland, COP Presidency</li> <li>• Valérie Quiniou-Ramus [TBC], Vice-President of Climate, Total</li> <li>• [TBC] International Energy Agency (IEA)</li> <li>• Karol Gobjczynski, Climate and Energy Manager, IKEA (EV100)</li> <li>• Climate Ethanol Alliance</li> </ul>

10 min	Responses and comments from Parties
25 min	<p><b>Segment 4 – Improve Modal Shift and System Efficiencies</b> Moderator: TBD</p> <ul style="list-style-type: none"> <li>• Dale Hall, ICCT (Global Green Freight Initiative)</li> <li>• [TBC] Mobility as a service, Ministry of Transport and Communications, Finland</li> <li>• Jonas Stromberg, Sustainability Director, Scania</li> <li>• International Union of Railway (UIC)</li> <li>• Bjoen Hanappel, Deutsche Post DHL Group</li> </ul>
10 min	Responses and comments from Parties
25 min	<p><b>Segment 5 – Adapting Transport to a Changing Climate</b> Moderator: Marcel Beukeboom, Climate Envoy for the Kingdom of the Netherlands</p> <ul style="list-style-type: none"> <li>• Navigating a Changing Climate</li> <li>• Global Centre of Excellence for Climate Adaptation</li> <li>• Bangladesh</li> <li>• Chile</li> </ul>
10 min	Responses and comments from Parties
5 min	<p><b>Concluding Remarks and Next Steps</b> Tomasz Chruszczow, Marrakech Partnership High-Level Champion, Poland</p>
18:00	<b>Close</b>
<p>Contact person:</p> <p>Name: Wei-Shiuen Ng Organization: International Transport Forum (ITF) Email address: wei-shiuen.ng@itf-oecd.org Telephone number: + 33 (0)1 45 24 99 31</p> <p>Name: Mark Major Organization: Partnership on Sustainable Low Carbon Transport (SLoCaT) Email address: mark.major@slocatpartnership.org Telephone number: + 34 638 798 344</p>	
<p>Logistical requirements (Not all requests may be accommodated but we will explore.)</p> <p>Computer, projector and screen.</p>
